

ALEX EXAMPLE

Software Engineering Student | alex@example.com | github.com/alex-example

EDUCATION

BSc Software Engineering, Example University (expected 2027)

Relevant courses: Data Structures, Algorithms, Databases, Object-Oriented Programming

SKILLS

Languages: Python, Java, JavaScript, SQL

Frameworks & tools: FastAPI, Flask, Git, GitHub, Linux, pytest

AI: machine learning basics with scikit-learn and Pandas

PROJECTS

Library Management API - Built a REST API with FastAPI and SQLite, with unit tests in pytest.

Movie Recommender - Trained a simple recommendation model with scikit-learn and Pandas.

Personal Website - Built with JavaScript, HTML and CSS; deployed via GitHub Pages.

EXPERIENCE

Teaching Assistant, Intro to Programming (Python) - helped 60 students debug their code.
